

Techno Chic

FRANZ
VIEGENER

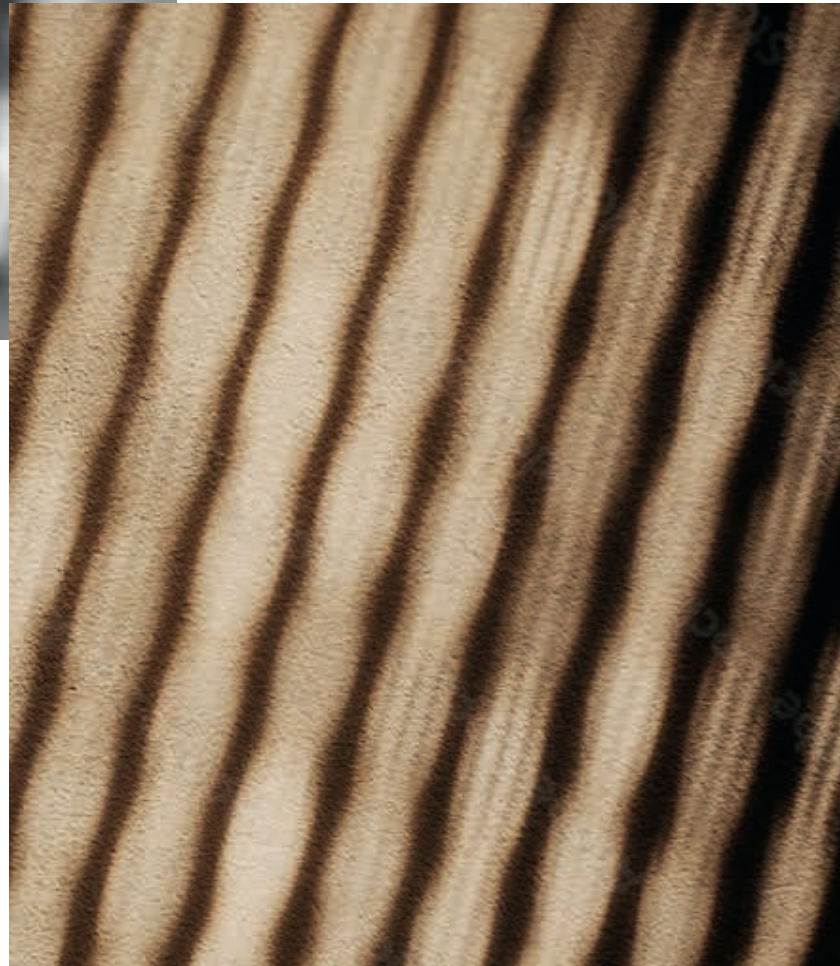

The perfect fusion between cutting-edge technology and style.

Its name sums it up in two words: the precision of technological processes, combined with the versatility of the chic style.

World of textures

Chic sophistication at
the highest level,
combined with
endless amounts of
texture to discover.

Knurling

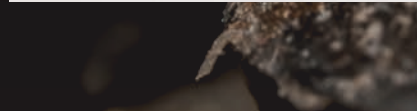

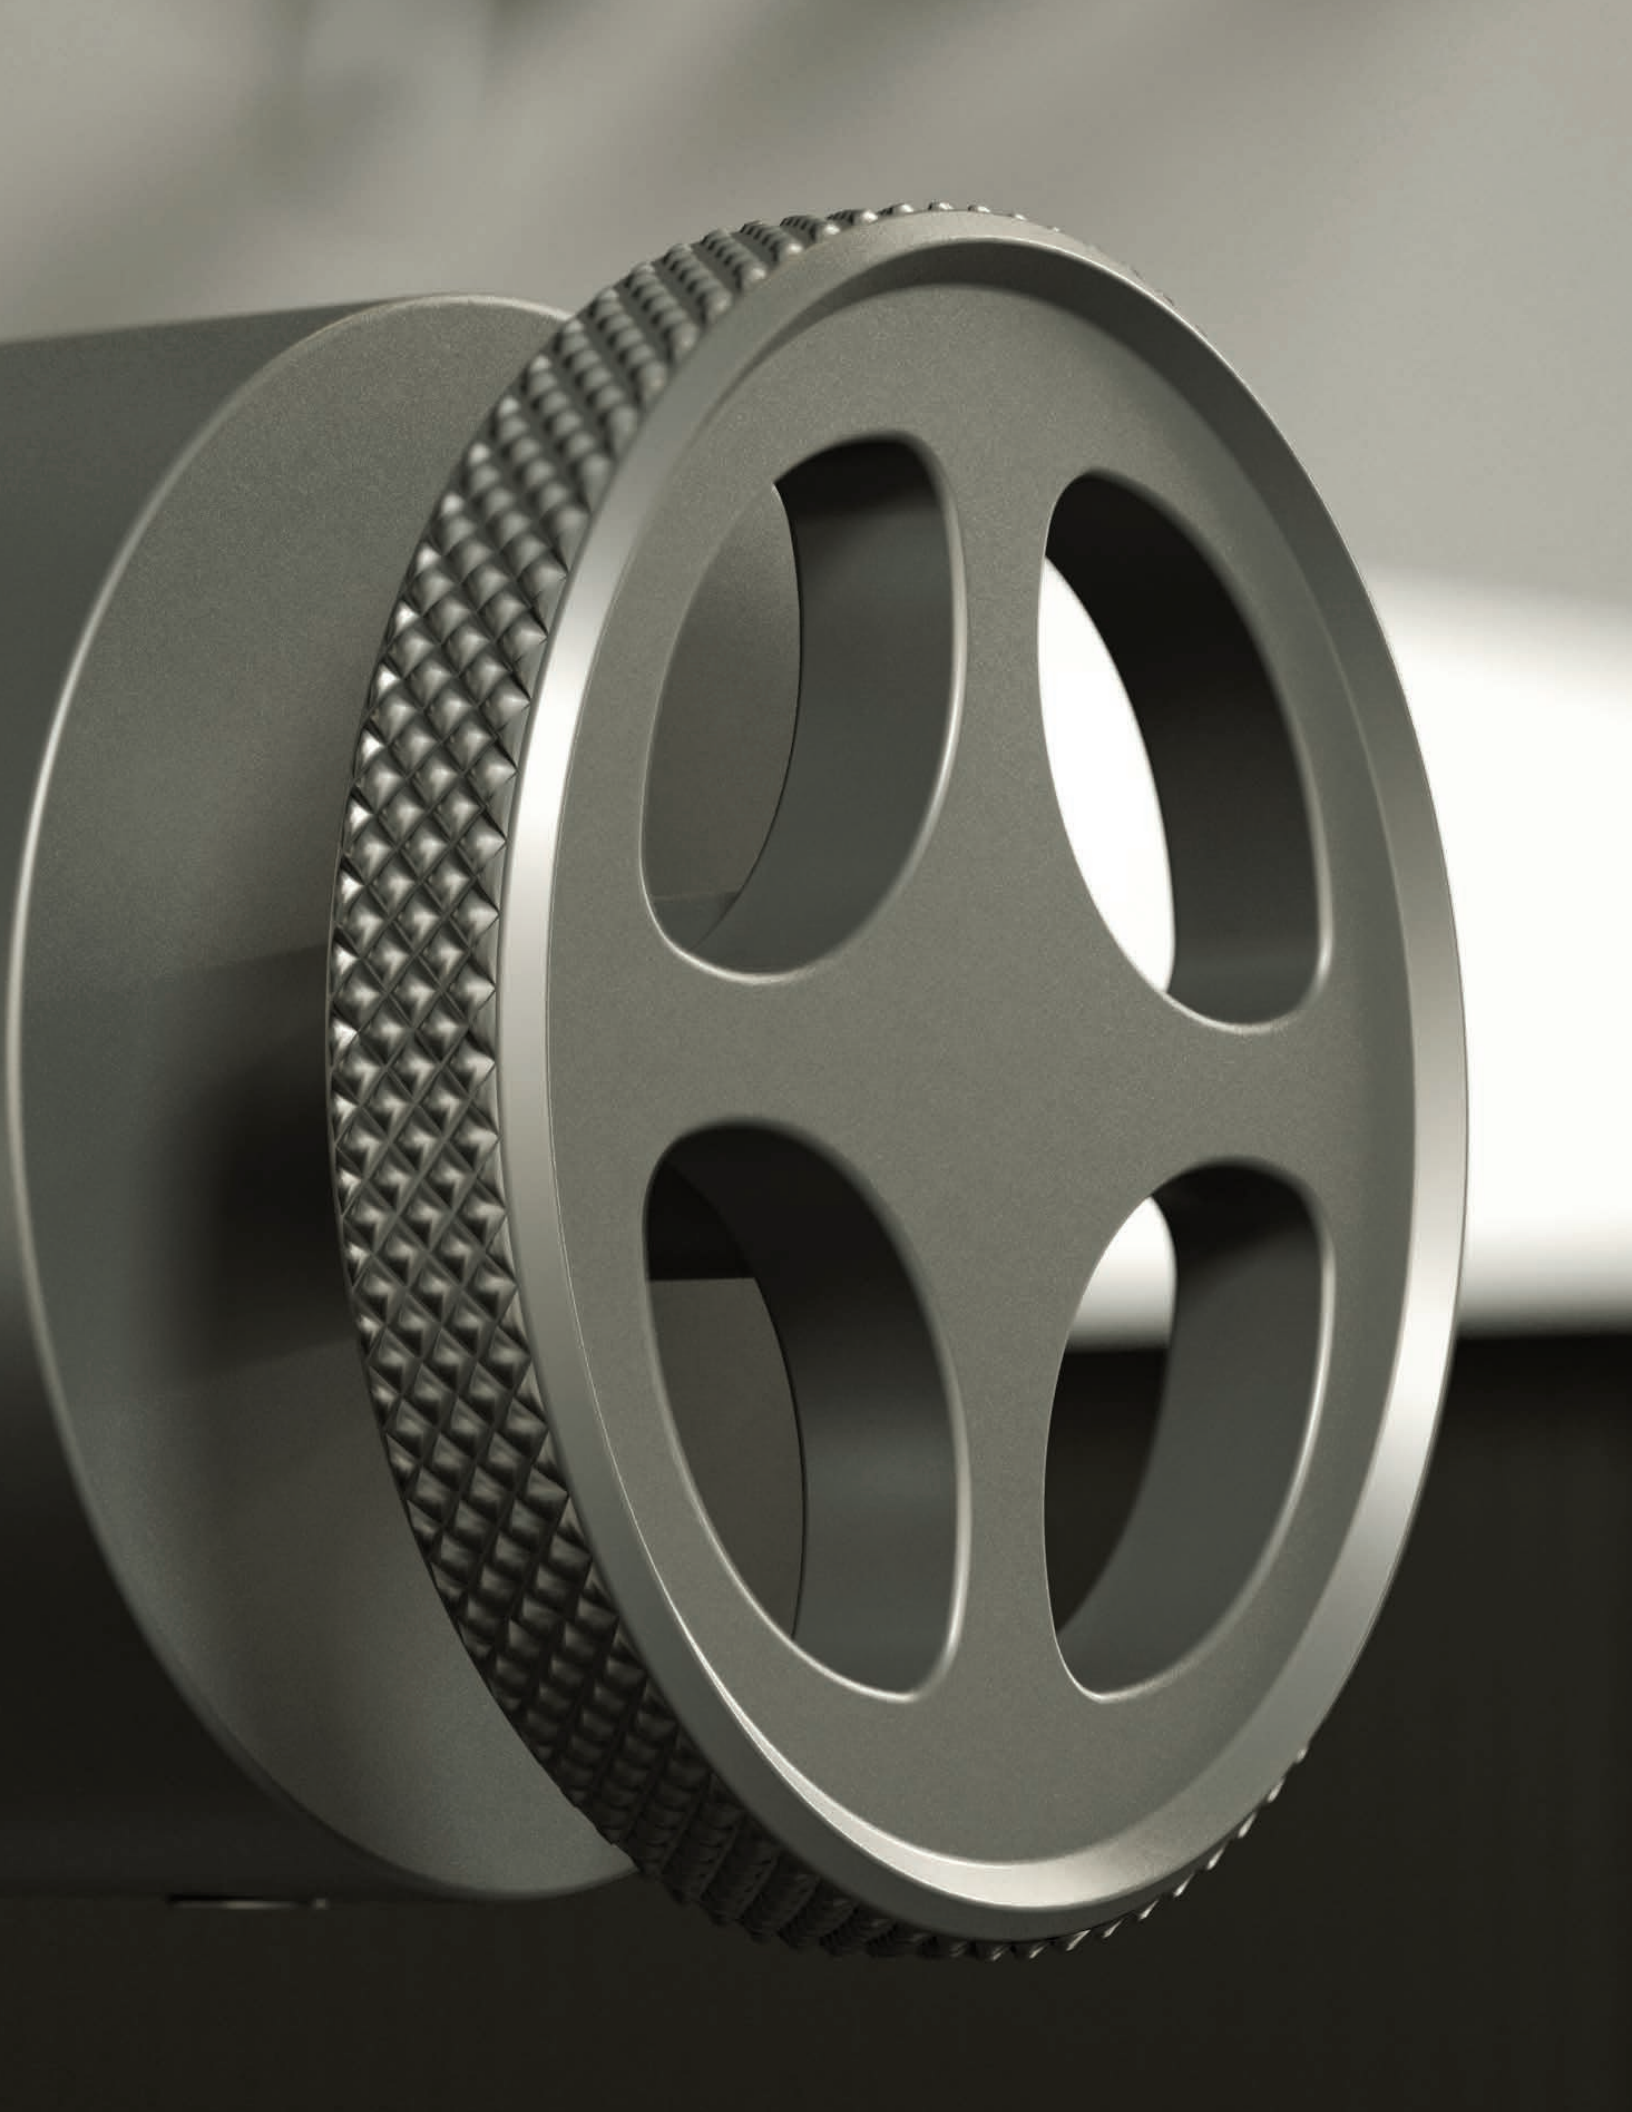

Micro details that provide
an ever-surprising
experience.

FV210/K7K – Deck mounted roman bath faucet ¾ valves

FV133/K7K – Deck mounted roman diverter valve and handshower assembly

Sustainability

Broadening awareness of the importance of caring for the planet's resources is one of the greatest challenges of our time.

We believe in an enduring, sustainable coexistence between human civilization and the natural world that gives it life – both in the present and the future.

We carefully consider water throughout our production process, reusing batches as many times as possible, and later treating it so that it can return to the aquifer and continue its natural journey.

Always acting with the environment in mind, Franz Viegner adds a dimension of enjoyment and mutual respect to the relationship that humans already have with water.
